

sewer_main

Location: infrastructure\sewer_main

Description

Wastewater master lift stations maintained by Bay County Utility Services, as point features.

Source

This shapefile was created November 1999 by Kathy McDonald of Bay County Utility Services. The wastewater facilities were digitized heads-up in ArcView using 1995 B&W aerial photography as a background.

In August 2002, name of this data was changed from facilities\masterls.shp to infrastructure\sewernodes.shp.

This data is draft. Additional fields and features will be added in the future to create a complete layer for the county sewer main system.

This data is provided with the understanding that the conclusions drawn from such information are solely the responsibilities of the user. The GIS data is not a legal representation of the features depicted, and any assumption of the legal status of this data is hereby disclaimed. Errors or omissions should be reported to the Bay County GIS Division 850-784-6171.

Attribute Table Structure

Item Name	Width	Output	Type	Decimals
name	5	5	C	-
location	25	25	C	-

Attributes

name

The identification code of the lift station. See table below.

location

General location and name of the lift station (LS). See table below.

name location

AWT	AWT	advanced wastewater treatment
C-6	Callaway Master LS	
CG-1	Cedar Grove Master LS	
IPS	Industrial Pump Station	
MB-1	Bay County Master LS	
MPL	Military Point Lagoon	
MXB	Mexico Beach WWTP	wastewater treatment plant
P-2	Parker Master LS	
S-3	Springfield Master LS	
TAFB	TABF WWTP	wastewater treatment plant
